OPEN MEETING SCHEDULED APRIL 10th

A meeting of the proposed Mattapoisett Taxpayers' Association is scheduled for Monday, April 10th, at 7:30 P.M. at the Town Hall. The idea of forming such a group has created a great deal of interest, and this is a meeting to which everyone on the voting list is invited.

Speakers to explain the work and merits of such an Association will be Mr. Rolfe Floyd, Jr., executive director of the New Bedford Taxpayers' Association, and Mr. Henry A. Jewell, past president of the Westport Taxpayers' Association. Since Westport is comparable in size and similar in government to Mattapoisett it should be of great interest to know how its Association works. The Westport group has 200 hundred active members and is of great help and influence in the work of governing the town.

On Monday, March 27th, a small group of Mattapoisett people interested in the idea of such an Association met at the Mattapoisett Town Hall. Mrs. Marjorie Morris gave an excellent outline of the aims of such a group. She explained the purpose in this way: To propose that which is beneficial to the town

and to oppose that which is restrictive. To inform the members. Through study and lecture and debate, members would be able to inform themselves so that a free and intelligent vote could be the result at town meetings. She also proposed that radio debate might be useful to expand knowledge. Other reasons given were to promote health, safety and conservation. To exert a healthy influence of private citizens toward a government of economic morality, legality and provide a means of constructive criticism. Mrs. Morris pointed out that she has worked with youth groups for many years and that young people have high expectations of their elders. A group such as this, she explained, would be a great stride in the direction of living up to these expectations and to taxation with representation.

Mr. Stephen C. Siney, Jr., director, field operations of the Massachusetts Federation of Taxpayers Associations, spoke to the group. He pointed out that with Town Meetings becoming more complex by the year, as Towns grow in size and provide more service to the citizens, it is vital to provide the citizen with the facts on which to base good judgment. An Association, he said, would be able to provide order and direction for the future of the Town. Mr. Rolfe Floyd, Jr., executive director of the New Bedford Taxpayers' Association, gave examples of the work of that group in New Bedford in explaining the constructive and useful force that can be put to work by private citizens for constructive aid to their elected officials. Both of these gentlemen emphasized that planning and permanence is essential to a successful group. They said that pressure groups of all kinds are to be avoided. Committees should be formed within the Association to study and observe all operations of departments in the Town structure

and report to a chairman who in turn would inform all of the group of the work and problems. They said it is most important that members join as individuals and use the group as planning and educational center, and a force for constructive help to Town officials in the guidance of the town, while they remain individuals when voting.

A steering group was formed at the conclusion of the March 27th meeting to prepare for this April 10th meeting open to all the voters of the Town. The committee: Mrs. Marjorie L. FOR BETTER LIVING

There just isn't anything like this new Armstrong *vinyl floor. . . It's*

TESSERA CORLON

When you see it, you'll agree — this new Armstrong vinyl floor, Tessera Corlon, is unique. And different. It actually has depth. You can look down into it. The softly colored vinyl chips set in translucent vinyl form fascinating random patterns. Tessera's natural textured effect adds elegance to any interior, yet never dominates. It's available in monochromatic stylings or with accent chips of contrasting colors. And Tessera can be used in every part of your home (even in a basement hideaway).

If you can't stop in to inspect this wonderfully new vinyl flooring — write or call today for samples and information.

In Pontiac, you'll enjoy stability no narrow track car can offer. With the widest stance on the road, you maneuver with skillful sureness and precise control. Coupled with Pontiac's improved suspension system, you're steadier, more secure, better-balanced. Look at Pontiac's Wide-Track wheels—64" tread to widen the stance, not the body.
